

Sensory Sensitive Planetarium Show at Chemeketa Community College

Come discover the solar system!

A special "star" projector is mounted in the center of the room which projects realistic images of the stars, planets, sun, and moon onto the ceiling for visitors to study and enjoy.

This is a private sensory sensitive show. The dome shaped room has stairs leading to the lower seating. There will be floor lighting illuminated for safety. The lighting and volume will be adjusted for the solar show. However, due to the room size, shape, and acoustics, noise earmuffs are recommended just in case.

All ages, siblings, and friends are welcome!

Date: Monday, May 21, 2018
Time: 11:00 a.m.
Location: Chemeketa Community College, Building 2, Room 171
4000 Lancaster Drive NE; Salem, OR
