In response to the growing coronavirus pandemic, it is more important than ever for us to be there for our community. We are offering emergency childcare to essential personnel who are serving as our community heroes in these trying times.

We are fiercely committed to your child's safety and will be strictly following the guidelines set forth by the Department of Education's Early Learning Division, Oregon Health Authority, and Office of Childcare, to ensure safety and sanitary conditions at our childcare site, Battle Creek Elementary School.

We kindly ask that proof of employment as an essential worker be provided on the first day of drop-off. This may be in the form of a pay stub or employee ID.
