

Circle Of Security Parent Education Class

Here are some founding principles that underlie the Circle of Security models of intervention: 1 Attachment problems in infancy and early childhood increase the probability of psychopathology later on in life. 2 Secure attachment relationships with caregivers are a protective factor for infants and preschoolers, setting the foundation for social competence and promoting effective functioning of the emotion regulation and stress response systems. 3 The quality of the attachment relationship is amenable to change. 4 Learning, including therapeutic change, occurs from within a secure base relationship. 5 Lasting change in the attachment relationship comes from caregivers' developing specific relationship capacities rather than learning techniques to manage behavior. 6 All caregivers want what is best for their children.

Thursday's 5:00-6:30 p.m. September 30th - November 18th, 2021

[CLICK HERE TO REGISTER](#)

One of the following is REQUIRED to attend for the Zoom and Canvas apps: Smart phone, tablet, computer.
